## Human Parentage & Relationship Testing

**R**PC's Forensic Biology Laboratory (FBL) is a New Brunswick based provider of DNA testing services for private citizens, law enforcement, lawyers, and government agencies. Our FBL has international accreditation (ISO 17025) as administered by the Standards Council of Canada to ensure the quality of our parentage and relationship testing.

### Types of tests...

- Paternity testing (with or without a mother)
- Maternity testing
- Twin testing
- Sibling analysis
- Grandparent - Grandchild testing
- Infidelity testing
- Profile
- And more... Please contact us to discuss your particular testing needs.

### Testing options...

- Discreet, peace of mind testing (for your own information)
- Legal testing (to use in court or with a government dept.)
- Various sample types accepted
- Express testing available

### DNA Testing

Our standard sample is a buccal swab taken from the cheek of each individual being tested (other sample types are accepted). DNA is extracted from the sample and amplified with a suite of DNA microsatellite loci (ABI-Identifiler™) to produce a 16 loci profile for each individual. These profiles are compared to determine the likelihood of a relationship between the tested individuals.

### Confidentiality

We aim to bring you superior services in all of our testing. This includes ensuring your rights to confidentiality and privacy under Canadian Law. As all our DNA testing is performed in Canada and records are archived in Canada, your privacy is governed by two federal laws: the Privacy Act and the Personal Information Protection and Electronic Documents Act.

### Contact

If you have questions about these services or would like to obtain pricing information please contact:

Benjamin S. Forward, Ph.D.  
Department Head, FFA  
Tel: 506.452.1365  
Fax: 506.452.1395  
Email: rpc-fbl@rpc.ca

Sherry Binette  
Forensic Biology Technician  
Tel: 506.460.5667  
Fax: 506.452.1395  
Email: rpc-fbl@rpc.ca

*RPC's Quality Management System is also registered to ISO 9001:2008 standards.*
