

FOR IMMEDIATE RELEASE

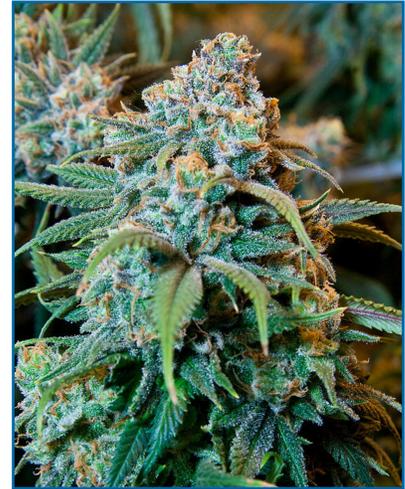

RPC Offering Analytical Services for Medicinal Marihuana Producers

July 23, 2013, Fredericton, NB - RPC is pleased to offer analytical services to licensed producers of medicinal marihuana under the Marihuana for Medical Purposes Regulations (MMPR). The MMPR sets out quality requirements for the production and sale of dried marihuana in Canada, and also applies to dried marihuana for the import/export market.

RPC is licensed by Health Canada to perform analysis of cannabis for levels of cannabinol, delta-9-tetrahydrocannabinol, and cannabidiol. Test methods are performed using validated, documented procedures which comply with regulatory requirements. We provide our clients with timely data of the highest quality, backed by a fully developed quality management system and quality assurance plan.

RPC offers an extensive suite of analytical services. We continue to add services to meet market demand. To learn more about our service offerings, visit our web site at www.rpc.ca.
