

FOR IMMEDIATE RELEASE

Visit RPC at booth 549 at the PDAC

Fredericton, February 23, 2011 - Planning to attend the PDAC? RPC will be there! Senior staff from our mineral process group will be available to discuss your projects at booth 549 at the Metro Toronto Convention Center March 6 through 9.

RPC has been serving the mining sector in New Brunswick and beyond for over 40 years. Our expertise is associated with the development and testing of mineral extraction processes. Our capabilities are diverse, but can be described in three major categories of mineral process engineering: mineral beneficiation, hydrometallurgy, and pyrometallurgy. Service offerings include flotation, bio/acid/base/pressure leaching, roasting and acid rock drainage. Experienced employees work from well-equipped labs and piloting facilities located in Fredericton, New Brunswick, Canada.

RPC is looking forward to meeting with current clients and welcome inquiries from new ones. Please drop by booth # 549 to see us or contact us to set up a meeting time.

About RPC

RPC is New Brunswick's provincial research organization (PRO), an independent contract research and development and technical services organization located in Fredericton, NB. RPC's complement of 100 scientists, engineers and technologists are supported by a 13,000 sq. meter facility housing world-class analytical chemistry and material-testing laboratories, comprehensive life science capabilities, an internationally recognized fish health lab, extensive prototype design, manufacturing and testing services, and a wide variety of pilot facilities for the development and improvement of industrial and environmental processes and products.

RPC is accredited by various organizations including the Standards Council of Canada (SCC) and is ISO 9001:2008 certified. Further information about RPC's services is available from www.rpc.ca.
