

FOR IMMEDIATE RELEASE

## RPC Available to Discuss Mineral Process Development and Testing at PDAC 2014

February 11, 2014, Fredericton, NB - Staff from RPC's Process and Environmental Technology group will be exhibiting at the Prospectors and Developers Association of Canada (PDAC) conference March 2 through March 5 at the Metro Toronto Convention Center in Toronto, Ontario. RPC offers mineral processing, bioleaching, hydrometallurgy and pyrometallurgy expertise to the mining industry. Utilizing our well-equipped pilot plant, our scientists and engineers have experience in all aspects of extractive metallurgy. Our environmental services include characterization and testing of acid producing rock, tailings and hazardous wastes. Our mineral processing services include crushing, sizing, grinding, gravity separation and flotation.

As in past years, RPC will be located at booth # 549. We look forward to meeting old friends and new clients. To arrange a meeting with an RPC representative, contact Leo Cheung at [Leo.Cheung@rpc.ca](mailto:Leo.Cheung@rpc.ca).

March 2-5, 2014  
Metro Toronto Convention Centre  
Toronto, Canada

### About RPC

RPC is New Brunswick's provincial research organization (PRO), an independent contract research and development and technical services organization located in Fredericton, NB. RPC's complement of 98 scientists, engineers and technologists are supported by a 13,000 sq. meter facility housing world-class analytical chemistry and material-testing laboratories, comprehensive life science capabilities, an internationally recognized fish health lab, extensive prototype design, manufacturing and testing services, and a wide variety of pilot facilities for the development and improvement of industrial and environmental processes and products.

RPC is accredited by various organizations including the Standards Council of Canada (SCC) and is ISO 9001:2008 certified. Further information about RPC's services is available from <http://www.rpc.ca>.
