

FOR IMMEDIATE RELEASE

RPC Recognizes Service Milestones and Annouces Merit Award

Fredericton, June 17, 2014 - RPC, New Brunswick's Provincial Research Organization, has been serving industry's analytical, applied research, engineering and inspection needs since 1962. RPC has an outstanding team of scientists, engineers, technologists and support staff. Eric Cook, CEO/Executive Director, remarked, "Client surveys consistently recognize that RPC's employees are committed to customer service. We thank you for this; it is key to our success."

Annually, RPC recognizes service milestones in 5 year increments. RPC recently held their service awards and recognized employees for reaching a milestone. This included three employees who reached their 25 year service milestones, and one that reached their 40-year milestone. Recipients included:

5 Years	15 Years	20 Years	25 Years	40 Years
Bryan Bourque	Karen Broad	Ross Kean	Angela Colford	Nettie Stewart
Gillian Hodges	Lisa Ferrish	Tracy Lean	John Macaulay	
Jessica Jones	Eric Johnsen	Mike Skinner	Chris Steeves	
Robert Kirouac	Rebecca Liston			
Tony Manning				

40 Year Recipient, Nettie Stewart (left), with RPC Chairman, Ken Reeder (right).

The recipients were recognized by their colleagues during a ceremony in early June. RPC's Chairman, Ken Reeder, presented the awards. During the same ceremony, Eric Cook, announced the winner of the annual RPC merit award.

The 2013-2014 Merit Award was presented to the Air Quality Services team for their efforts in significantly improving services with increased capacity, improved procedures, expanded scope and an expanded client base. Cook noted, "This team recognized opportunity for improvement and acted. I applaud their initiative and congratulate them on their achievement."

2013-2014 Merit Award Team Members (from left to right): Darren Tarr, Sandi Walker, Jodi Buckingham, Dr. Diane Botelho, Erin Craig, Karla McLellan, Bryan Bourque

About RPC

RPC is New Brunswick's provincial research organization (PRO), an independent contract research and development and technical services organization located in Fredericton, NB. RPC's complement of 98 scientists, engineers and technologists are supported by a 13,000 sq. meter facility housing world-class analytical chemistry and material-testing laboratories, comprehensive life science capabilities, an internationally recognized fish health lab, extensive prototype design, manufacturing and testing services, and a wide variety of pilot facilities for the development and improvement of industrial and environmental processes and products.

RPC is accredited by various organizations including the Standards Council of Canada (SCC) and is ISO 9001:2008 certified. Further information about RPC's services is available from <http://www.rpc.ca>.
