

FOR IMMEDIATE RELEASE

RPC to Present Strange Lake Rare Earth Study at COM 2014 RPC will be represented at several additional conferences this Fall

September 23, Fredericton, NB - Leo Cheung will be presenting a paper based on the results of a rougher flotation study on the Strange Lake rare earth deposit at COM 2014. The Conference of Metallurgists is being held in Vancouver, British Columbia on September 28 through October 1, 2014. More information on the conference is available at: <http://web.cim.org/com2014/>

RPC is working with Quest Rare Minerals Ltd (<http://www.questrareminerals.com>). The presentation will describe the deposit, the treatments and the results.

RPC's Mineral and Industrial Services group has expertise in extractive metallurgy that has been successfully applied throughout North America, Europe, Asia and South America. To learn more about our services, see:

September 29 - October 2, 2014
October 9-10, 2014
October 14, 2014
October 15-17, 2014
October 12-22, 2014
November 2-4, 2014
November 11-13, 2014
November 18, 2014

About RPC

RPC is New Brunswick's provincial research organization (PRO), an independent contract research and development and technical services organization located in Fredericton and Moncton, NB. RPC's complement of 98 scientists, engineers and technologists are supported by a 13,000 sq. meter facility housing world-class analytical chemistry and material-testing laboratories, comprehensive life science capabilities, an internationally recognized fish health lab, extensive prototype design, manufacturing and testing services, and a wide variety of pilot facilities for the development and improvement of industrial and environmental processes and products.

RPC is accredited by various organizations including the Standards Council of Canada (SCC) and is ISO 9001:2008 certified. Further information about RPC's services is available from www.rpc.ca.
