FOR IMMEDIATE RELEASE

## RPC Hosts Innovations Insights Tour

Fredericton, June 7, 2012 - The Canadian Manufacturers and Exporters (CME) , New Brunswick Division, recently held their annual general meeting in Fredericton. RPC collaborated with the CME-NB and the National Research Council's Industrial Research Assistance Program (NRC-IRAP) to host the Innovations Insights Tour.

"RPC is proud to participate in the this program," said Eric Cook, RPC's Executive Director. "As New Brunswick's provincial research organization, our focus is on industry-driven research and technology. CME members are active clients of ours and continuously challenge us with their market opportunities."

During the tour, participants were shown five ways that RPC can help industry innovate. These included invent, analyze, optimize, pilot and verify.

RPC delivers services to over 900 clients annually and has been delivering science and engineering services to industry since 1962.

### About RPC

RPC is New Brunswick's provincial research organization (PRO), an independent contract research and development and technical services organization located in Fredericton, NB. RPC's complement of 98 scientists, engineers and technologists are supported by a 13,000 sq. meter facility housing world-class analytical chemistry and material-testing laboratories, comprehensive life science capabilities, an internationally recognized fish health lab, extensive prototype design, manufacturing and testing services, and a wide variety of pilot facilities for the development and improvement of industrial and environmental processes and products.

RPC is accredited by various organizations including the Standards Council of Canada (SCC) and is ISO 9001:2008 certified. Further information about RPC's services is available from <http://www.rpc.ca>.
