

FOR IMMEDIATE RELEASE

## RPC Now Open at New Location in Moncton

May 25, 2020, Moncton, NB - RPC is pleased to announce that their new lab, located at 115A Harrisville Boulevard in Moncton, is operational today.

“This is a more modern facility with up to date lab finishes,” noted Steve Holmes, COO. “The location will be more convenient for our customers and suppliers. It also positions RPC for future growth from our Moncton location,” Holmes noted.

An official opening will be held at a later date. Effective immediately, clients, couriers and suppliers should use this new location, just off the Trans Canada Highway, in the Caledonia Industrial Park.

### About RPC

RPC is New Brunswick’s provincial research organization (PRO), a research and technology organization (RTO) with locations in Fredericton, Moncton, and St. George, NB. RPC’s complement of 170 scientists, engineers, technologists and support staff operate from a 13,000 sq. meter facility housing world-class analytical chemistry and material-testing laboratories, comprehensive life science capabilities, an internationally recognized fish health lab, extensive product development, design, manufacturing and testing services, and a wide variety of pilot facilities for the development and improvement of industrial and environmental processes and products.

RPC holds over 100 accreditations and certifications including a diverse ISO 17025 scope from the Standards Council of Canada (SCC) and is ISO 9001:2015 certified. Further information about RPC’s services is available from [www.rpc.ca](http://www.rpc.ca).
