FOR IMMEDIATE RELEASE

RPC Now on Twitter

July 29, 2015, Fredericton, NB - RPC clients, employees, suppliers and other stakeholders can keep aware of RPC news and events via two social media channels. RPC has been on Linkedin for some time, providing updates on new capabilities and developments on a regular basis. Effective today, RPC will now be on Twitter, providing another convenient media to keep in touch.

"We are responding to requests for more updates on our activities," noted Eric Cook, CEO of RPC. "We'll be launching our Twitter presence with some tweets about RPC's history. After that, we'll provide updates on new services, new equipment and other items of interest."

About RPC

RPC is New Brunswick's provincial research organization (PRO), an independent contract research and development and technical services organization located in Fredericton and Moncton, NB. RPC's complement of 95 scientists, engineers and technologists are supported by a 13,000 sq. meter facility housing world-class analytical chemistry and material-testing laboratories, comprehensive life science capabilities, an internationally recognized fish health lab, extensive prototype design, manufacturing and testing services, and a wide variety of pilot facilities for the development and improvement of industrial and environmental processes and products.

RPC is accredited by various organizations including the Standards Council of Canada (SCC) and is ISO 9001:2008 certified. Further information about RPC's services is available from www.rpc.ca.
